** ANDORRA [non]. 6005, Dec 7 at 1740, no signal at all from Kall/Krekel, Germany, as publicized for a special 1980 R. Andorra broadcast at 17-20 UT today. So stays closed down? Is running however in French at:
https://www.youtube.com/watch?v=o5oj30ZAj2A
Supposed to repeat at 20-23 UT on 3985 (Glenn Hauser, OK, WOR)

** ARGENTINA. 28455 USB, Dec 9 at 2314, LU3MCG calling CQ 10m in English. QRZ.com: ``LU3MCG Argentina flag Argentina, Sebastián José "LU3MCG" Micheletti, El nevado 1616 Chacras de Coria, Luján de Cuyo Mendoza, cp 5507, Argentina`` (Glenn Hauser, OK, WOR)

** ARGENTINA. 28485 USB, Dec 10 at 2315, LU7YS, ``Sergio, here in Patagonia, southwest Argentina``, contacting W4WTS: QRZ.com ``LU7YS, Argentina flag Argentina, +5492944668508, SERGIO LANDONI, Los Fresnos 525 Altos del Chapelco, SAN MARTIN DE LOS ANDES - PATAGONIA, NQ 8370, Argentina``

28505 USB, Dec 10 at 2319, LU1QAK calling CQDX in English. QRZ.com: ``LU1QAK Argentina flag Argentina, WhatsApp +54 9 2665 114025, Marcelo Daniel "MAR" Puntorero, Av Los Puquios (Ruta 9) s/n Barrio Islas Malvinas Manz E Casa 6, Juana Koslay, Provincia de San Luis 5701, Argentina`` -- nothing much else on 10m audible now (Glenn Hauser, OK, WOR)

** AUSTRALIA. 28567 USB, Dec 8 at 2321, Oz accent, VK4DJP or DJT? Only the latter in QRZ.com: ``VK4DJT Australia flag Australia, Dylan J Thiedeke, Neumann Drive, Collingwood Park, QL 4301, Australia`` (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, Thu Dec 4 at 0749, RNA already in American token English, about Samba/Reggae. S9+5/15 here but not // on much weaker 6180, some other music. Recheck before 0800, same in Spanish on 11780. Could 6180 also be RNA as expected but with different program feed? Nothing else listed at this time. Sort of makes sense, as 6180 is more for a domestic audience (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, Dec 8 at 0151, token English from RNA I haven`t checked lately; is UT Tue-Sat only except when elbowed by stupid ballgames. S8/9+10 into nearby `Brasila` SDR. But hardly local line-or-sight quality, rather fluttery: maybe skywave backscatter QRM? I didn`t realize exactly when it started as switched from PP to PP-accented English. Voice-over translation of a musician talking about being a drummer and then banjo player, in Pará. Lose the voice-under! We don`t need any more QRM. 0154 English outro as International Service, switch to Spanish by different announcer who has a heavy Brazilian accent but trying to speak Castilian, saying ``os``. Also on // 6180 but with QRhuM (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, Dec 9 at 0151, token English from RNA I haven`t checked lately; is UT Tue-Sat only except when elbowed by stupid ballgames. S8/9+10 into nearby `Brasila` SDR. But hardly local line-of-sight quality, rather fluttery: maybe skywave backscatter QRM? I didn`t realize exactly when it started as switched from PP to PP-accented English. Voice-over translation of a musician talking about being a drummer and then banjo player, in Pará. Lose the voice-under! We don`t need any more QRM. 0154 English outro as International Service, switch to Spanish by different announcer who has a heavy Brazilian accent but trying to speak Castilian, saying ``os``. Also on // 6180 but with QRhuM. {correcting date in previous report; NOT Dec 8}. And same thing heard again at 0751 Dec 9, S3/S4 direct on 11780 while 6180 is a JBA carrier (Glenn Hauser, OK, WOR)

** BRAZIL. 25985-LSB, Dec 8 at 2257, 2-way in Brasuguese, holiday wishes, with beeps. Something similar on 25955-LSB. Are these ``official`` CB channels in Brasil? Yes, below 26 MHz, not above (Glenn Hauser, OK, WOR) 25985 also heard Dec 10

** CANADA. 351 MCW kHz, Dec 8 at 0712 UT, dash and YKQ, 500-watt NDB at Waskaganish QC, again making it, only the #2 Canadian after more regular 346 kHz YXL Sioux Lookout ON. More details in previous report (Glenn Hauser, OK, WOR)

** CANADA. 353 MCW kHz, Dec 8 at 0713 UT, dash and PG, JBA, period of repetition 10 seconds from PortaGe MB. #3 Canadian when YXL and YKQ are already audible. Why isn`t it YPG? RNA list shows only 25 watts and T of 9.775 sex. Presumably Portage-la-Prairie which is midway between Brandon and Winnipeg. Unusual to hear this on 353 rather than LI, LIttle Rock AR (Glenn Hauser, OK, WOR)

** CHINA. 6230 AM, Dec 8 at 2309, S9 algo in Chinese? Per Aoki this is 24h frequency of CNR1 *jamming and Sound of Hope = Xi Wang Zhi Sheng, Miaoli, Taiwan. Many other FE signals on this and higher bands at grayline (Glenn Hauser, OK, WOR)

** CHINA. 9900, Dec 10 at 2322, Chinese S9+30/40 with extreme flutter both up and down in strength and sideways/Doppler in frequency, CNR1 jammer. Same sound soon on 11750 but not a jammer per Aoki. K index at 0000 is six and a third, as WWV reports:

``Geophysical Alert Message wwv.txt # Prepared by the US Dept. of Commerce, NOAA, Space Weather Prediction Center
Solar-terrestrial indices for 10 December follow.
Solar flux 168 and estimated planetary A-index 21.
The estimated planetary K-index at 0000 UTC on 11 December was 6.33.
Space weather for the past 24 hours has been moderate.
Geomagnetic storms reaching the G2 level occurred.
Radio blackouts reaching the R1 level occurred.
Space weather for the next 24 hours is predicted to be moderate.
Geomagnetic storms reaching the G2 level are expected.
Radio blackouts reaching the R2 level are expected``
(Glenn Hauser, OK, WOR)

** CHINA. 21550, Dec 10 at 2318, Chinese JBA S4/S7 and the OSOB except for JBA carrier slightly below 21750 which could be a local birdie. EiBi shows Sound of Hope at 2130-1500 on 21550, but not a CNR1 jammer which this surely be. Aoki shows both between 0000 and 1500 (Glenn Hauser, OK, WOR) See also CUBA 13650

** CUBA [and non]. 5025, Dec 4 at 0800 and earlier, R. Rebelde is off. Explaining the absence of any RHC/China relay frequencies earlier on Dec 3, a Fox `news` bit I happened to hit tuning across KXEL 1540 at 0802: blackout covering the western half of Cuba! Here`s RHC itself about that as of Dec 4:

https://www.radiohc.cu/restablecido-el-sistema-electrico-nacional-pero-persisten-afectaciones/
1000 megawatt apagón blamed on a shortage of fuel for generators. RHC not rechecked until 1720: into Georgia SDR, 11880 is back on, loud S9+5/15, also // 15140 S9+15/20 but sounding much weaker with usual windhowl.

BTW, when I was trying to reach RHC website, I ran across this HUGE ARCHIVE of VOA SW Radiograms and other programs, major references such as HFCC back to 2011:
http://www.rhci-online.net/radiogram/radiogram.htm
(Glenn Hauser, OK, WORLD OF RADIO 2324)

** CUBA. 15140 & 11880, Dec 4 at 1959 tune-in, dead-air from both RHCs, preventing any audibility of 2000+ English. Probably chopped previous Kriyol modulating circa 1957 as habitual. Dec 5 tune-in Georgia remote at 1957, and both same, already DA, SAWA. Waterfall on ``howling wind`` 15140 is neat, very regular repeating patterns 15135-15145 best seen in SAS mode past 2038 (Glenn Hauser, OK, WOR)

** CUBA. 15140, Dec 5 at 1554, RHC Spanish S9/+5 vs windhowl, in the clear S5/S7 on // 15230. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 11760, Dec 5 at 2320, RHC howling-wind transmitter now here from 15140 earlier, Spanish // much louder and clearer 11880, S9+20/30. Also not off the air are China relays on 13650 S7/S9 and 5960 S9+20. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 11880, Dec 6 at 1957-2003+ dead air only from RHC instead of English. Again I tuned in too late to note just when they chopped modulation. No other frequencies even on (Glenn Hauser, OK, WOR)

** CUBA. 5025, Dec 7 at 0112, R. Rebelde, S9+10/20 dead air in Spanish; 4765 R. Progreso off. Both are off into Georgia SDR at 0345 check (Glenn Hauser, OK, WOR)

** CUBA. 11760, Dec 7 at 1601, RHC S8/S9 plugging few FM frequencies in western Cuba, 1602 IS and finally open weekly Esperanto. Only // is 15140 with windhowl, S7/S9. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 11760, Dec 7 at 1948, RHC deadair direct, likewise 15140 except for windhowl, so already all set for no English at 2000 (Glenn Hauser, OK, WOR)

** CUBA. 15230, Dec 8 at 1550, JBA carrier S4, probably dead air; while 11760 at 1553 has good Spanish mod at S5/S7 direct. NOT on: 15140, 13780, 11880 (Glenn Hauser, OK, WOR)

** CUBA. 11880, Dec 8 at 1931, RHC Kriyol, VG S9+15/20 into Georgia SDR, only here, 15140 nor any others on air. This time I keep listening and hear modulation chopped at 1956, replaced by hum rather than totally deadair, plenty of time to prevent English from airing at 2000. Still no other RHC frequencies are on, but the hum continues past 2043 (Glenn Hauser, OK, WOR)

** CUBA. 13650, Dec 8 at 2304, news in ENGLISH! from S9+10/20 CRI/CGTN relay for the first time instead of pointless non-Portuguese music fill for years & years. Remains to be heard whether deliberate or mistake. Wolfgang Buschel says before 2300, 13650 had also changed to RHC Spanish. At 2305 into `World Insight`. Meanwhile 5990 CRI relay was missing, but at 2308 S9+20 of deadair on 6000 (Glenn Hauser, OK, WOR)

** CUBA. More to my report of CRI English instead of non-Portuguese music fill on 13650 at 2300 Dec 8: evidently an anomaly:

``13650 CUBA (Quivican) China Radio Intl. at 2325, in progress at tune-in. Man in what sounded like English news, but, (drat-!), we were mobile and in a high static area at the time. The usual Chinese canned "elevator music" music started up right on the half hour mark (2330 UT), and went to 2358, when man in Portuguese came on with station's ID and sked info. Off right on midnight UT. The static was worst at the most crucial time, when we heard English words leaking through. Good rx at the end for the announcer in (clearly) Portuguese (to Brazil). Heard mobile with RS DX-402 and NewTronics "Hustler" IC-100S-B roof-mount antenna. --- Fair to Good (at end) 12/8 (Rick Barton, Sun City AZ)`` (Glenn Hauser, OK, WOR)

** CUBA. 5025, Dec 9 at 0755, S9+15 of dead air in Spanish from R. Rebelde. Something`s always wrong at RadioCuba. But on 670, Dec 3 at 0727 UT, ``Aquí en Rebelde`` briefly overcame WSCR (Glenn Hauser, OK, WOR)

** CUBA. 9710, Dec 9 at 0758, S5/S6 of dead air in Spanish or English, no doubt RHC overtime (Glenn Hauser, OK, WOR)

** CUBA. 15140, Dec 9 at 1555, RHC Spanish, S9+15/25 with windhowl, and 15230 S9 of dead air. Something`s always wrong at RHC. At 2020 I look at the waterfall into Athens GA SDR: again, very interesting symmetrical pattern of diagonal lines; and then a separate line wandering between 15180 and 15210. At first I thought it might be R. Inconfidência, Brasil, which is always off-frequency about 15189.8 but doesn`t vary much. Then I see a matching wandering line below RHC from 15070 and up. By 2025 they are not equal sides from center 15140 but still match wandering, circa 15060 and 15160 (Glenn Hauser, OK, WOR)

** CUBA. 11760, Dec 9 at 2302, S9+20/30 of windhowl only, 11880 with S9+20 of clear dead air; something`s always wrong at RHC. No 13 or 15 MHz frequencies on. 11760 *still* windhowling at 0713 UT Dec 10, S9+5 direct, and the OSOB (Glenn Hauser, OK, WOR)

** CUBA. 13650, Dec 9 at 2300, RIC s/on in Portuguese, music. So yesterday`s CRI English relay indeed an anomaly. Not on the air before 2300 either. Also music Dec 10 at 2302 (Glenn Hauser, OK, WOR)

** CUBA. 5025, Dec 9 at 2320, S9+20/30 of dead air in Spanish from R. Rebelde. SAWA (Glenn Hauser, OK, WOR)

** CUBA [non]. 7365, 7435, 6030, UT Sun Dec 7 at 0106, R. Martí not off the air, all VG about Xmas traditions (Glenn Hauser, OK, WOR)

** CUBA [non]. 11860, Dec 9 at 2303, R. Martí with news on the hour? Of course not! Discussing stupid ballgames as its primary format, Los Dodgers de Los Ángeles. Hmm, is there any way to say Dodgers in Spanish? ``Los que evitan?``. Google translate insists the Spanish word is also dodgers. They have a hard time pronouncing the -dg- like we do (Glenn Hauser, OK, WOR)

** CUBA [non]. 5980, Dec 10 at 1340, no signal from R. Martí. At 1350 I do find it active on 7435 and 11930 with bigsigs, open carrier on 13570. Not on 9805 either; 6030 something JBA surely else. I am unfortunately awake from 1330 tnx to a noisy roofing crew across the street tearing off shingles. I am checking this as result of NASWA Flashsheet item, to which I already replied in the WOR iog, viz.:

``5980. PERU Radio Chaski, 1357, 12/1. Man speaking carefully and deliberately. Faded in and out. (Coomler, AZ) == Bob Coomler, Tucson, AZ. Equipment: Perseus SDR, Wellbrook ALA1530LN loop``

gh: I don`t recall ever seeing this reported in recent years. WRTH 2025 p 347 does list it as OBX4M, 1 kW at 11-02; not in EiBi, but Aoki does show it:
5980 1000-1500 PRU Radio Chaski Spa Urubamba, C 1-7
5980 2200-0103 PRU Radio Chaski Spa Urubamba, C 1-7 [daily from Cusco]

Neither Aoki nor EiBi has anything else on 5980 on air at this time, but that`s 9 am in Perú, a bit late for low-power prop ~3h after LSR. And not to be confused with Bolivia`s R Mosoj Chaski on 3310. I would want more definite log info to assume this! {He does not even specify a language.} If active during those hours, someone should more easily DX it over all-night path. BTW, chaski means receiver in Quechua.

Shouldn`t it mean transmitter?

BTW2, WWCR makes a leapfrog mixing product on 5980, but only when 5890 & 5935 are both on, certainly not at this time, but has fooled some DXers as something more exotic.

[Later:] Aha, 5980 is also in HFCC for R Marti at 1100-1400; may or may not be active or reliable currently from Greenville. Need to check it!`` (Glenn Hauser, OK, WOR)

** EAST TURKISTAN. 5060 & 4980 JBA talk, 4850 JBA carrier, 4500 JBA carrier vs CODAR in order of decreasing strength, the four language home services of PBS Xinjiang, Urumqi, Dec 7 at 0048 direct near grayline from the land of imperialist ChiCom cultural genocide against Uighurs and other Moslems (Glenn Hauser, OK, WOR)

** EAST TURKISTAN. 7250, Dec 7 at 0105, Mandarin at S9+10. It`s CRI to S Asia via Urumqi; RRI in Romanian also sked here intruding to E North America, but obviously not on tonight, alternate? (Glenn Hauser, OK, WOR)

** FINLAND [non]. 6120.004, Dec 8 at 1940, ME music, S9/+10 into UTwente, no doubt V of Turkey as scheduled from 1930 in Turkish per EiBi. R. Blacksmith Knoll was publicized by Kari Kallio as saluting Sibelius on his birthday with classical music all day, but check a sesquihour earlier was not hearing it. East Turkistan also listed on 6120 until 1800 (Glenn Hauser, OK, WOR)

** FRANCE. 7320-7325-7330, Dec 7 at 0819, S9+18 of DRM noise. EiBi shows one of those many irregular DRMs at 08-09 from TDF Issoudun (Glenn Hauser, OK, WOR)

** FRANCE. 21660, MiniTransAt: from Terry Krueger, NW FL, 0535 UT Dec 4: ``Glenn - I assumed they were done on the 3 Dec check. No trace at 1500Z. I left the channel on while doing tasks around the house. Then they suddenly appeared at 1506, at the ending of the forecast by the French accented lady in English. “Goodbye, see you tomorrow” (not sure how one “sees” via radio). Techno vocals, off 1515. Local level as always. Apparently a malfunction starting time making the transmission useless for the boater if he was even listening to antiquated shortwave. How long will it take one stinking slow boat off Guadeloupe to make it? I guess they’ll be back 4 Dec but I won’t be home to check``

I do check it Dec 4: 21660 on air *1503-1515*: JIP English weather info, for Wednesday the 19th [! of November], also mention Thursday 20th - so is playing back oldstuff on autopilot? At 1507 she says ``See you tomorrow``, and music, more songs at 1510, 1514 to chopoff 1515* which seems to be SOP now. Was S4/S5 (Glenn Hauser, OK, WORLD OF RADIO 2324)

** FRANCE. 21660, Dec 5 at *1503, TDF Issoudun cuts on MiniTransAt once again, S5/S7 direct, JIP wind and pressure info predicted for ``Wednesday the 19th``, i.e. NOVEMBER; probably same totally outdated and useless recording as played yesterday and how many days before then? Also mentions dates 20th and 21st; 1507 ``see you tomorrow``, and music fill, this time chopped off at 1513* instead of 1515*

Likewise, Terry L Krueger, NW FL: ``Mini Tranny --- Presumably you were listening to 21660 again today, 5 DEC. Up at 1503Z, outdated Wednesday November 19th forecast by French accented lady in English, useless mid-forecast. The same brief techno/vocal female songs they’ve been using of late as end filler, but off at 1513 instead of 1515. What’s the point of this? Is it like the Monty Python “Contractual Obligation” album? Is something inadequate Issoudun?`` (Glenn Hauser,

OK, WOR)

** FRANCE. 15710, Sat Dec 6 at 1607, talk about ``sin`` so a gospel huxter in English, not noticed before, S5/S6 direct. Sked at 1600-1630 Sats only is Moresh V. of Amhara, an RMI relay via Issoudun --- in AMHARIC! default to English, or wrong program? (Glenn Hauser, OK, WOR)

** FRANCE. 21660, Dec 6 around 1503-1510, no signal from MiniTransAt -- finally they have turned off their useless outdated marine weather repeats. Likewise from Terry Krueger, NW FL: ``21660 Mini Tranny --- Silence, finally, 1458-1520+ monitoring today, Saturday 6 December`` (Glenn Hauser, OK, WOR)

** FRANCE. 21660, Dec 7 at 1500-1507 check, MiniTransAt is still off the air (Glenn Hauser, OK, WOR)

** JAPAN [non]. 7450, Dec 8 at 0520, ``Radio Japan, Tokyo`` and off. French to WAf sked 0500-0520 via FRANCE (Glenn Hauser, OK, WOR)

** JAPAN. 13705, Dec 8 at 2306, jaunty orchestral music S9/+10, what`s this? Prélude; at 2310 `Sakura` and NHKWRJ opening scheduled Thai; to be followed by Vietnamese at 2330 and Burmese an hour later (Glenn Hauser, OK, WOR)

** JAPAN. 28475 USB, Dec 5 at 2324, JQ2JNQ calling CQ 10/DX in English. No time to check much on 10m, but seems several other JJ like 28465, 28457 and PP from Brasil such as 28415, 28457; and DU accents, QRZ.com: ``JQ2JNQ Japan flag Japan, Yoshihiro Mochizuki, 2-16-9 Karase, Aoi-ku, Shizuoka-city, Shizuoka, 420-0937, Japan`` (Glenn Hauser, OK, WOR)

** JAPAN. 28555 USB, Dec 9 at 2317, JG1OUT Tokyo making a contact; his regular frequency and the highest OUTlier normally heard on 10m USB phone. See Oct 14 & 28, 2025 logs; Nov 19, 2024 (Glenn Hauser, OK, WOR)

** KOREA SOUTH. 28487 USB, Dec 8 at 2317, HL5FEE, spelt name SONG, contacting a Mike. Unsure of first letter after the number but followed by echo. Search of QRZ.com on call HL5FE gets nowhere, but searching on handle and then callsigns in order, this one most likely: ``HL5FEE Youngdo "SONG" Song Daegu`` --> ``HL5FEE South Korea flag South Korea, Youngdo "SONG" Song, 101-1905, Kolon Hanulche, Chimsanro 22-gil 31, Buggu, Daegu 41584, South Korea`` (Glenn Hauser, OK, WOR)

** KOREA SOUTH. 28490 USB, Dec 9 at 2316, Song, HL5FEE, contacting N5MP, Mike in Dallas who is JBA; reconfirming my hearance of him 24 hours ago on 28487, q.v. (Glenn Hauser, OK, WOR)

** NEW ZEALAND. Re: 28228, ZL3TEN not in QRZ.com: ``Hi Glenn! Take another look. ZL3TEN is run by the Christchurch VHF DX Group: https://www.qrz.com/db/ZL3TEN
Steve Howe`` - Not sure how I missed that (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6925 AM, Dec 7 at 0035, pirate music S9+10/20, still at 0056. Several reports here as Liquid Radio, but only between 2304 and 0010:
https://www.hfunderground.com/board/index.php/topic,154941.0.html
Next on 6925, more reports from 0138 headed unID, but Liquid Radio too:
https://www.hfunderground.com/board/index.php/topic,154952.0.html
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6905 USB, Dec 7 at 0037, very professional-sounding parody ads with actors, SFX, music, S9+20/30, for gutter cleaning

powered by Diesel engine, on Brain Brothers Radio. 0032 Medicare Magic Hotline, all-in-one-in-all plan. 0045 `Jingle Bells` performed by barking dogs. 0046 `Holly Jolly Xmas`. Tuned away until 0053 when `Star Spangled Banner` is playing, soprano and orchestra, not a parody. I must have just missed s/off announcement. Followed by JFK: ``Ask not ---``, tone and off* before 0056. Many more logs here: https://www.hfunderground.com/board/index.php/topic,154945.0.html This was really good, wish I had heard more of it. Hope they repeat it. That reminds me, I am not aware of any of the US licensed SW stations *ever* playing our national anthem! What a shame. If I were programming a station, I would collect countless different versions and play them at least once a day (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 15400 AM, Dec 5 at 2319, thintonations of Josiah immediately recognized as Station YHWH on a non-7475 channel he has used before, S9 but undermodulated (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 15400 AM, Dec 10 at 2310, S9 with JBM thintonations of Josiah, anti-Christ pirate, Station YHWH again here as heard Dec 5 at 2319 (Glenn Hauser, OK, WOR)

** OKLAHOMA [and non]. 5140 USB, Wed Dec 10 at 1509, I remember to check for the emergency operations net starting at 1500. YL NCS is wrapping up the *Missouri* EOC, ``till next week``; call WNBE830; other calls mentioned and maybe heard, WNBE700. And at 1513, WPFY721 has VG signal, mentioning Beckham county - which is in OK, and Moore, city near OKC. Same calls in previous report a week ago, locations: WNBE830 Jefferson City MO; WPFY721 Seminole OK; WNBE700 might have been WNPV700 in Durant OK (Glenn Hauser, Enid, WOR)

** OKLAHOMA [and non]. 95.1, Dec 5 at 2055 UT, Xmasmx in $tereo back on, presumably from the Tree of Lights transmitter in downtown Enid. But no local 93.1 carrier or music, rather KHMY `My 93.1` Kansas ID which owns the frequency, tropo-enhanced on a `warm` day. Acts like a Hutchinson station but CoL is Pratt; perhaps they be ashamed of that name (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 93.1 & 95.1, Dec 10 circa 2100 UT, dead air in $tereo both Part 15?/pirate transmitters in Enid, both attain full quieting downtown. 93.1 has occasionally been heard with some music, and 95.1 went with the `Tree of Lights`; how about some Xmasmx if leaving it on anyway? I`ve yet to visit two or three other locations in Enid which usually have Xmas light-and-FM-sound shows. 1680 kHz, Virtual DJ Radio, ops normal circa 2130 Dec 10 (Glenn Hauser, OK, WOR)

** OKLAHOMA. Cable channel 5, Dec 5 at 1601 UT, checking `The View` from ABC, as usually starts with political comments by Whoopi, Joy Behar and the other gals I can never tell apart, before they get into fluff for rest of hour; but the sound is missing, replaced by noise, Optimum FU again? No! Sometimes I can get KOCO OKC direct thru my antenna on RF7, and it`s the same! KOCO is axually transmitting this way on air as well as however Optimum gets feed. Nothing on screen about audio difficulties! At least the closed captioning is OK. Is anyone paying attn at KOCO master control? Finally restores View audio at 1606; dumps out to noise again for a few sex at 1608, and not checked further (Glenn Hauser, Enid, WOR)

** PERU. 5980, R. Chaski: see CUBA [non]

** PHILIPPINES. 28485 USB, Dec 7 at 0016, Nello, DU1NLO making quick contacts and QRZ. QRZ.com: ``DU1NLO Philippines flag Philippines, Nello Baricaua, 24 Mirage Street Concorde Village, Tambo Paranaque City 1701, Philippines`` - also several Japanese on 10m (Glenn Hauser, OK, WOR)

** POLAND [non]. 15770, Dec 8 at 2310, Polish R External Service, via WRN on WRMI, S9+10/20. Recommended for well-done news of eastern Europe near Ukraine; much better reception direct than simulEnglish from Turkey, Spain if ever resumes weekly (Glenn Hauser, OK, WOR)

** PUERTO RICO. 28355 USB, Dec 6 at 1616, KP4PR making quick contacts with a VE3 et al. QRZ.com: ``KP4PR Puerto Rico flag Puerto Rico, JOSE R Perez Pacheco, URB LOS ANGELES 123 CALLE LUNA, Carolina, PR 00979-1700, USA`` (Glenn Hauser, OK, WOR)

** PUERTO RICO. 391 MCW kHz, Dec 8 at 0722 UT, DDP, NDB at Dorado airport. It`s usually audible now, not always relogged, for the record. I would love to log other Caribbean NDBs if any exist (Glenn Hauser, OK, WOR)

** ROMANIA. 6145, Dec 8 at 0516, S9+10/20 direct, sports report in Romanian, and RR Actualitatsi ID, i.e. relay of a domestic network. It`s via Galbeni for southern Europe at 05-06 only (Glenn Hauser, OK, WOR)

** SPAIN. Re: no English yet. This from Michael Andersson in bdxc-news Dec 4: ``R Exterior de España - English programmes --- I got this reply today, so a near future comeback is to expect. Good news!

"Hello Michael, Thank you so much for the messages and for listening us. Marilyn left, as you know, and now we, the two new hosts, are starting again with the broadcast next week, we needed some training and time to adapt but next wednesday we will be on air again. Best wishes, Daniel Riobóo"`` {same also via Simon Frech}

Ken Zichi replies Dec 4: Re: [WOR] Still no English from Spain -- I too sent an email. Marilyn (Q I presume) responded and told me she was being told REE was 'well heard' in North America and they had many reception reports (those were the words she used....) She thought there may be something wrong with 'my equipment'.

I responded to THAT saying 'someone is not telling you the full story' and relayed that the North American beamed frequencies have been off the air for MONTHS, I was not the only person noticing that, and it was near impossible to hear them since the season change. I even sent audio recordings in a separate message to demonstrate how poorly they were received.

She replied that she would be 'on vacation for a week' and would follow up when she got back. I then saw a post here that she was moving to a different department and there would be new EE host(s) but I've heard nothing directly back from Marilyn or anyone else at REE since then. I tried again this AM to the 'general' email -- we'll see if I get a response! Thanks for also trying. I'm curious to hear if you get a response! 73 //Ken Z`` (Glenn Hauser, OK, WORLD OF RADIO 2324)

** SPAIN. 12030, UT Tue Dec 9 at 2305, REE in French, as Jean-Michel Aubier was anticipating. This is also reduced to one hour a week but had been missing a while. Announcer speaks with a heavy accent, I guess Castilian, making French sound rough rather than smooth. REE advance program sked agrees on French now and ENGLISH tomorrow, UT Wednesday. They still don`t introduce us to the new spEEkers. 12030 is the only usable frequency despite beamed away toward ME, as NAm channel 9690 remains imaginary. Alan Roe did hear English online Wed Dec 10 at 1100 UT, and the new announcers are named Daniel Riobóo, and Alba Cuéllar.

12030, Wed Dec 9 at 2300, REE timesignal and immediately into English, S9 fading to S5 direct, making copy tough. 17715 & 17755 are but JBA

carriers while 9690 to NAm is still imaginary. Daniel sounds like a male, altho a photo caption implied female. Will listen later to podcast. Some discussion of this Dec 10 in the WOR iog:

Bill Tilford: ``Online only at this hour, but REE is on in English again as I type (11:07 UTC) Escucha RNE Radio Exterior en DIRECTO 🎧``

``I'm also checking REE online at 1100 UT, with two new hosts: Daniel Riobóo and a lady whose name I cannot fully catch - something like Helva Queyar. English on shortwave scheduled at 2300 UT. Ah - her name is Alba Cuéllar - as established by the live stream thumbnail. I assume that's her in the image alongside Marilyn Quintana. I did enjoy the English hour online this morning, and hopefully listeners can catch it on shortwave later today at 2300 UT.

I have however commented to Daniel and Alba concerning the presentation style. There was too much background music heard, especially during the interviews, which became a little intrusive and I think that when heard on shortwave it could become a problem for listeners to fully understand. I have pointed out that shortwave reception, even on good days, is usually not the clearest with noise and fading, so it is preferable to not have background music during the interview segments and that perhaps it would be better just to fade in snippets of the music between natural pauses in the conversation. Alan Roe, Teddington, UK``

``That’s a valid critique, Alan. I find that often the background music is too loud, and a peeve with NPR news programs is that the music fades up too soon, as if we always needed a reminder that the report or interview is about to end. And of course on shortwave it makes hearing and understanding even harder.

Nevertheless, I'm glad the English broadcast is back. I like to use some of the news in my radio magazine “EuroBureau” on our local community FM radio station, kmud.org.

I’m not well set up for shortwave listening anymore, I find RNE English at https://www.rtve.es/play/audios/english-language-broadcast/ Simon Frech`` (Glenn Hauser, OK, WOR)

** TURKEY. 5960.002, Dec 5 at 2313, no signal direct from VOT, but algo talk on accidentalternate 9610. However by 2321, weak S9 algo music on 5960 so VOT probably came on late. At 2332 into UTwente, when measured, definitely VOT, with sounder and English talk, S9+30/35. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 5960.00, Sat Dec 6 at 2336, VOT English not off the air, S9+35/45 into UTwente. Not checked again until 0002 UT Sun Dec 7 when measured and when it`s *still* on the air in extraneous German. Something`s always erroneous at Emirler. Direct check at 0049 gets a JBA carrier, probably still2 VOT (Glenn Hauser, OK, WOR)

** TURKEY. 9660.008, Sun Dec 7 at 1759, VOT English into UTwente, S9+15/25 Turkish music; feared I tuned in too late for `Letterbox` but this week does not start until 1801. 1) Ms. Bell?, UK, uses UTwente. 2) Allan Willie, Canada, another set of *100* reception reports using a 600-foot Beverage antenna at 135 degrees. {This is hardly aimed at Turkey, and totally unnecessary for SW}. 3) Mohammed Breyel[?], near KL, Malaysia. {Again I query whether this is the same or related person to well-known DXer Timm Breyel in Malaysia}. 4) Mr. Roland? --, Ista? City, Sweden, another FM DX report from Ju[ne or ly? fade], TRT R3 on 88.0, due to ``extreme atmospheric conditions``. {Guess what, it`s the ionosphere way above the atmosphere, obviously sporadic E

propagation which is never mentioned. Previously I measured distance under 1.5 kilomiles}. 5) Siddartha Papajarjee[?], India, questions about opera shows, rate of TV watching, largest TV company? {Guess he meant *soap* operas} - they are very popular in Turkey and abroad, TRT one of the largest. At 1812: 6) Mr Perry Moore, England. 7) David Golan?, Moncton NB. 8) no name young person, gender unknown, in SW Malaysia. Rushes home for quick shower before tuning in Malay service on 17530. {They never mention the time: it`s 05-06 UT, so that would be 13-14 LT}. 1819 ending, 1820 theme (Glenn Hauser, OK, WOR)

** TURKEY. 5960.002+, Dec 8 at 2259, VOT English ID and IS, S9 direct but = noise level. At 2355 into UTwente when measured, S9+25 IS until 2356* uncovering Chinese, failing to provide any extraneous German (Glenn Hauser, OK, WOR)

** TURKEY. 5960, Dec 9 at 2257, VOT IS, S9+15/20 direct, not off the air, unreadable vs noise level (Glenn Hauser, OK, WOR)

** TURKEY. 5960, Dec 10 at 2259, no signal from VOT English direct, but is on at 2320 check with music, S9+10/20 (Glenn Hauser, OK, WOR)

** U S A. 293 MCW kHz, Dec 5 at 0331, UI, 25-watt NDB at qUIncy IL, mixing/alternating with dominant FBY, Fairbury NE, which is normally alone. Periods are almost the same per RNA list: UI 6.180, FBY 6.60 sex.

335 MCW kHz, Dec 5 at 0732 UT, BK, 25-watt NDB `CHRLZ`, at Brookings SD. Heard only once before, Oct 6, q.v. (Glenn Hauser, OK, WOR)

** U S A. 397 MCW kHz, Dec 8 at 0723, JE, NDB at `Algoa`, JeffErson City MO. Last logged for sure Oct 6, 2020, but had a carrier Nov 29, 2025 (Glenn Hauser, OK, WOR)

** U S A. 407 MCW kHz, Dec 8 at 0724 UT, OOC, NDB at Natchitoches LA, as IDed Dec 1, q.v., under HRU in KS, only the C audible now in clear during HRU pauses (Glenn Hauser, OK, WOR)

** U S A. 410 MCW kHz, Dec 6 at 0751 UT, BA, 25-watt NDB at `Clifs`, Columbus IN. Tuning up in USB I first copied it on 408 (Glenn Hauser, OK, WOR)

** U S A. 521 MCW kHz, Dec 8 at 0725 UT, TO, 25 watt NDB at Topeka KS. Seldom heard, last logged Oct 14. The only one normally audible in the 510-530 band is 515 PN in nearby Ponca City OK. 512 HMY Lexington OK gone since 2018y (Glenn Hauser, OK, WOR)

** U S A. 28250 CW, Dec 9 at 2306, very slow beacon with unusual message: READ BIBLE DE KI6MTV/B. Geez, can`t escape gospel huxters even on 10m beaconband. WGB list: ``28250.0 KI6MTV/B - Shingle Springs CA USA CM98mq - #0 (06 Nov 2024) Note: ID onlym {sic} - Slow keying``. S.S. is just east of Sacramento -- another religious allusion! on US 50. QRZ.com: ``KI6MTV USA flag USA, Michael R Hislop, PO BOX 121, SHINGLE SPRINGS, CA 95682, USA`` (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2323 monitoring: ``Richard Lemke, St. Albert, Alberta, Canada, from the desk of Richard's listening Post, Radio: JRC NRD-535 HF, 1995, (30 years of service), Antenna: random long wires in the trees. WRMI, World of Radio (#2323):
15770 kHz, 2230, 2245 (2-35441), 2258 November 29 UTC [Sat]
 9395 kHz, 0000-0029, (45433), December 1 UTC 2025 [Mon]
 9395 kHz, 0130, yes heard 2323, 0159, December 3 UTC 2025 [Wed]
 9395 kHz, 0030-0059 (45433), S5 signal, December 4 UTC 2025 [Thu]
(Lemke, Richard -AB) 73's, Richard``

Confirmed UT Thursday December 4 at 0030 on WRMI 9395, S9+5/15 into

N9AZZ IL remote.

Also confirmed UT Thursday December 4 at 0130 on WRMI 5010, S7/S9 into Radio Club de Costa Rica SDR.

Also confirmed Thursday December 4 at 1730 on SW Radio Gold, Germany, 6160.001+, S9/+10 into UTwente with ACI from 6165 and splat even from 6150. Delayed a few sex on 3975.001+, S8/9+5.

As a noncommercial public service program, financial support appreciated. Thanks this week to Dr Richard Langley, New Brunswick, for a contribution via PayPal in US funds but not necessarily, to: woradio at yahoo.com and says, ``Hi Glenn: About time I made another contribution. It goes without saying what a great service you supply to the shortwave enthusiast community. We're getting smaller and older but to rephrase a familiar expression, "keep listening and carry on" -- Richard Langley``

One may also contribute by MO or check on a US bank to:
Glenn Hauser, P O Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2324 monitoring: Zach Liangas provides this automatic text transcript of the entire WOR 2324! ``here is an excerpt just for Oenone to check it`` who or what is Oenone??
https://app.simplenote.com/p/jw5KVs
Impressive in a way but also NOT to be trusted in any detail, replete with errors, misunderstanding words, so what I said makes no sense, etc., etc. Especially stupid about proper names. I wonder if it were made from my audio file, or off-air SW broadcast introducing additional mistakes. Posted at 0835 UT Dec 5, before any SWBC.

Not confirmed Friday December 5 at 1300 the first SWBC, on WRMI 15770, since I did not awaken until 1333; but probably. Anyone hear it?

** U S A [and non]. WORLD OF RADIO 2324 monitoring: confirmed Friday December 5 at 2130 on IRRS SW via AM Italia, 1322.991+, VG S9 into UTwente across Europe. Tuned in at 2129, `Wavescan` was *starting until cut off for ID and WOR. Presumably WS had just finished full play from 2100 as sked, into auto-repeat?

Also confirmed Friday December 5 at 2138 the 2130 on WRMI webcast only.

But not confirmed Friday December 5 at 2300 on WRMI 9955 because it`s OFF the air! 9395 & 9455 inbooming and all other WRMI frequencies nominal. Hopefully was still webcasting, not checked. 9955 back on by 0158 Dec 6 check, S9/+20 music, 0159 Rudy Espinal ID, 0200 R. Prague International in English. Yet System B sked for 9955 shows that at 0400, and Alameda Bible Fellowship at 0200! Something`s odd at Okee.

Confirmed Friday December 5 at 2333 the 2330 on SW Radio Gold, Germany, 3975.003, good into UTwente.

Also confirmed UT Saturday December 6 from 0359.8 on WTWW 5085, traditionally introduced as ``The ministry of ---``, VG S9/+12 into NH SDR. Earlier at 0210 checked 5085 direct, S9+45/55 and plus/minus 12.8 kHz spurs hitting S9 on 5072.2 and 5097.8 but no significant modulation on them.

Also confirmed Saturday December 6 at 1533 on SW Radio Gold, Germany, 6160.001+ S9+5 with some ChiCom ACI from 6165; and seems synchronized on clear 3975.002+, S9+15.

Also confirmed Saturday December 6 at 1630 on WRMI 9955, S9+25/40 into Georgia SDR.

Also confirmed Saturday December 6 at 1700 on WRMI 7730, S7/S8 JBA into Georgia SDR: started with `Encore`, pause and cut to WOR. VG S9+17/27 on WRMI 9395. This airing comes from WRN. Next:

2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;

2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2324 monitoring: I did not get to check any of the Sunday 0730, 1030 or 1130 broadcasts.

``World of Radio on IRRS Milano --- Mr. Hauser, Happen to run across your World of Radio broadcast on IRRS Milano at 1040 UT 2025-12-07; signal was poor give a 3,3,2. Was able to hold this station until about 11:05 UT 2025-12-07 before it faded away. Thank you, Thomas Dorman, Bell, Oklahoma``

Presumably 9510 and heard direct from Saftica, Romania site? Reply: ``Mr. Hauser, direct on a Tecsun PL 365 on a broom stick antenna mount horizontally. Thought for a moment WRMI had open up a new frequency but quickly realize it was IRRS Milano. Mr. Hauser, could it be the solar storms we are having causing signal to jump over the poles into the the U.S. plains and the western slopes of the Ozarks? Just guessing. Thanks, Thomas Dorman`` Maybe, but prop from Europe at that hour in winter on 9 MHz should not be too unusual. Next:

2000 UT Sunday IRRS SW via AM Italia 1323;
2230 UT Sunday SW Radio, Germany 3975;
2330 UT Sunday WRMI 9455 to NW;
0000 UT Monday WRMI 9395 to NNW;
0030 UT Monday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0930 UT Monday SW Radio, Germany 6160;
2030 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;

0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2324 monitoring: Confirmed Sunday December 7 at 2000 on IRRS SW via AM Italia, 1322.998-, S9+5 into UTwente. Previous preacher was still talking when interrupted just before 2000 for 7290 s/off, ID and WOR.

Also confirmed Sunday December 7 at 2121 the 2100 on WRN Europe stream.

Also confirmed Sunday December 7 at 2258 the 2230 on SW Radio Gold, Germany, 3975.002+, JBA S6/S7 into UTwente.

Also confirmed Sunday December 7 at 2330 on WRMI 9455, S9+20/40 into Georgia SDR.

Also confirmed UT Monday December 8 at 0000 on WRMI 9395, S9+30 into Georgia SDR.

Also confirmed UT Monday December 8 at 0030 on WRMI 9455, S9+50! into Georgia SDR.

Also confirmed UT Monday December 8 at 0030 on WRMI 7780, S9/+10 into S Texas SDR.

Also confirmed UT Monday December 8 from 0404.5 on Area 51 webcast. Tuned in at 0358, WBCQ 5130 -83 Hz = 5129.917 was S9/+15 into Maryland SDR - but dead air. Meanwhile stream was OK. SW finally came to life at 0400 for WBCQ s/off. JL on RNYI 11-L gotta go a bit late at 0401, and some other music from 0402 until WOR started. Next:

2030 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2324 monitoring: Also confirmed Monday December 8 from 2030.7 on SW Radio Gold, Germany, S6/S8 poor on 3975.002- into UTwente. Next:

0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2324 monitoring: ``9455 UNITED STATES (FL) WRMI at 2330. Glenn Hauser with this week's World of Radio (#2324). Strong and steady signal, heard with RS DX-402, IC-100S-B mobile antenna. Short music bridge and then open of Jeff White "Wavescan" at midnight UT. NOTE: Recheck at midnight thirty UT (12/8), had World of Radio reprised, which helped me catch what I missed earlier (splitting my time with MW DXing). Much stronger signal here, still with mobile setup. --- Good 12/7 [Sunday-Monday] (Rick Barton, Sun City AZ)``

Confirmed UT Tuesday December 9 at 0335 the 0330 on WRMI 7780, poor signal direct here as usual to the NW since aimed SW from Okee.

Also confirmed Tuesday December 9 at 1400 on WRMI 9955, S8/S9 direct.

Also confirmed Tuesday December 9 at 1500 on WRMI 9955, S5/S8 direct. Next:

2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;

0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2324 monitoring: confirmed Tuesday December 9 at 2102 the 2100 on IRRS SW via AM Italia, 1322.998, S9+10.15 into nearby Noale SDR, and still no sigs on 918 or 207 kHz.

Also confirmed UT Wednesday December 10 at 0030 on SW Radio Gold, Germany, 3975.002+, S8/S9 into UTwente.

Also confirmed UT Wednesday December 10 at 0130 on WRMI 9395, S9/+15 into Champaign IL SDR.

Also confirmed Wednesday December 10 at 2030 on SW Radio Gold, Germany, 3975.002, S9 into UTwente.

Also confirmed Wednesday December 10 at 2200 on WBCQ, 7490 -32 Hz = 7489.968, S9/+15 into Maryland SDR. Next:

0030 UT Thursday WRMI 9395 to NNW {confirmed};
0130 UT Thursday WRMI 5010 to S {confirmed};
1730 UT Thursday SW Radio, Germany 3975 & 6160.

As a noncommercial public service program, financial support appreciated. Thanks this week to Dr Richard Langley, New Brunswick, for a contribution via PayPal in US funds but not necessarily, to:
woradio at yahoo.com

One may also contribute by MO or check on a US bank to:
Glenn Hauser, P O Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A. 5850, Thu Dec 4 at 0747, S9+35/45 of classical music on WRMI-12; WRN relay of Deutsche Welle is scheduled daily except Sundays with WOR during this semihour. I would have guessed it were `Encore` (Glenn Hauser, OK, WOR)

** U S A. 15770, Sat Dec 6 at 2008, WRMI with `Henry Norman Show`, playing oldies. I assumed he was Anglo with a name like that but speaks with a German? accent. No clue where he really is from web listing or gmail address. Only half an hour and at 2026 said he would ``see {sic} you in 4 weeks`` so must be a monthly produxion but repeated week to week. Only other time on WRMI sked is Saturday 2330 on 9955, unchecked (Glenn Hauser, OK, WOR)

** U S A. 9455, UT Sun Dec 7 at 0058, KB0CQ in the Ozarx of Missouri saying good night - that must be `Echoes in the Ether` sked 00-01 UT Sundays on System K. 0100 followed by R. Praga in Spanish but that`s System E? which thinx it`s with WRN now (Glenn Hauser, OK, WOR) WRMI

** U S A. 9455, Mon Dec 8 at 2312, WRMI S9+30 with something in Spanish, not Brazuguese. Aoki and WRMI System D grid show RAE PP on Mon/Tue/Thu/Fri, otherdays WRMI shows in English. This is where I heard RAE DX program in Portuguese on Tue Nov 25 (Glenn Hauser, OK, WOR) WRMI: see also POLAND [non]

** U S A. WBCQ chex pre-`AAAWWW`, Dec 6 at 0051 into NH SDR which is accurately calibrated per 10000.000 WWV: 3265 still off. 5130 off. 6160 -73 Hz = 6159.927 R. Angela, 0056 as `Lost Discs Radio Show`. 7490 -23 Hz = 7489.977 higher than before with FKB; 9330 WLCR Portuguese S5/S9. At *0055, 5130 -43 Hz = 5129.957 cuts on with The Planet IS & ID loop. At 0100 switching between 7490- & 5130- I may have missed a confession that it`s a rerun, altho their political screeds are pretty much the same over and over. 5130 has a continuous tone, pitch slightly varying, not on 7490 but it`s faded way down, so

I switch to 7490 webcast where it`s barely audible and not so annoying. By now, 6160 has also switched to `AAAWWW` but it`s weakerly modulated too. Or not: at 0149 it`s different when he says trimulcasting on 9330, 7490 and 5130. His opening remarx over theme are ``no matter what, it`s always about free speech``. 0103 fiddling with mikes - he on an old one, she on a new one - they are in same studio for a change, I guess from home in Deland of Fla. On to talk about Cold War, anti-communism, dissing ``moonbats``, Bernie Sanders, etc. Quotes RCA`s Gen. Sarnov. He pronounces ``fiefdom`` with a long I as if it`s where they play fifes? Somehow I keep listening until 0130 as he still hasn`t uttered a datestamp. At 0130 he finally prompts her to ``introduce the show``: Studio 9 where it`s 77 degrees F, has been hot in the 90s --- so this can`t be from December, tho still hasn`t given any real date. Finally at 0151 Allan says it is 4 of April YOOLF 2025! Never mind?
https://www.w4uvh.net/ghlogs_2025_0403_0409.txt
BTW, yesterday, Allan notified me that Radio Angela on 6160 had a new schedule of 6 pm to 3 am daily ET = 23-08 UT, no longer 24/7. Still no specific program schedule within (Glenn Hauser, OK, WOR)

** U S A. 7489.9, Dec 8 at 0521 tune-in, S9 of dead air and shortly off*. Got to be WBCQ on signature skewed frequency but no chance to pinpoint it. Supposedly with TOMBS until 0500. Three 40-mb broadcasters in a row close just as I tune them in, avoiding me? Vatican, Japan via France, WBCQ (Glenn Hauser, OK, WOR)

** U S A. 4840, Thu Dec 4 at 0745, WWCR is S9+40/50 of dead air in English. Scheduled at 0730-0800 M-F on WWCR-3 is `Insight for Living`, Chuck Swindoll. Will he get a refund or make-good? Did he or anyone at WWCR know it was mute? May depend on whom to blame (Glenn Hauser, OK, WOR)

** U S A. 9265, Fri Dec 5 at 2015, dead air at S7/S9 from WINB - or is it a trace of JBM? Websked dated Nov 2 still has WRONG CONVERSION between ET and UT of 4 hours instead of 5! If they meant 3:00 pm EST, the muted show now would be `Worship at Home` - assuming that be a program rather than an instruxion. WaH length varies depending on day, judging from next entry on sked: one hour on Monday, Tuesday, Wednesday; one sesquihour on Thursday; one bihour on Friday. Something`s wrong at wRedLion (Glenn Hauser, OK, WOR)

** U S A. 9275, Dec 8 at 1554, DEJOM JBA S3 direct. WMLK supposed to be on 15150 at this hour. They are not free to run any of their three frequencies at any hour as they have been doing. FCC still hasn`t put up B25 registrations, but B24 required 15150, 17525 and 9275 in that order one at a time during the day. BTW, right now even 9330 WLCR/WBCQ is also JBA S4 despite K-index of 0 (Glenn Hauser, OK, WOR)

** U S A. 9275, Dec 8 at 2311, WMLK properly back on with solosing, after offsked 9275 earlier at 1554 (Glenn Hauser, OK, WOR)

** U S A. 780, Dec 7 at 0739 UT, WBBM cuts to StarDate already in progress without any intro, instead of smooth transition at 0740. Also WBBM has a continuous whine, not a pure tone. Seems on their transmitter rather than QRM (Glenn Hauser, OK, WOR)

** U S A. 870, Dec 7 at 0757 UT, dead air from WWL New Orleans (Glenn Hauser, OK, WOR)

** U S A. 1030 kHz, Dec 6 UT at 0802, R. Ambiente, Spanish ID along with FM 101.5, i.e. WGSF Memphis TN. Dominant signal nights on 1030, never mind WBZ, KTWO, XEQR. See previous logs in November (Glenn Hauser, OK, WOR)

** U S A. 1360, Dec 7 at 0753 UT, ``1300 & 94.9 KSCJ`` two or three

times in promo: U2 5/5 kW Sioux City IA with K235CA 94.9. Direxional night pattern has a lobe to the SSW; site is in IA. Last logged Sept 20 & 12, 2020 when trying for WNJC DX test (Glenn Hauser, OK, WOR)

** U S A. 1569.82 kHz, Dec 8 at 0749 UT, JBA carrier hetting 1570.00 XERF and anything else. For once we have a contemporary hit at mwoffsets: ``1570 1569,825 USA WLRS New Albany IN [1569.6-] 2025-11-09`` Is U1 1500/233 watts. See also my recent log: ``UNIDENTIFIED. 1569.81, Nov 22 at 0736 UT, JBA carrier hetting 1570.0 stations`` (Glenn Hauser, OK, WOR)

** VATICAN. 7360, Dec 8 at 0519, ``LIX`` Latin catch-phrase and VR IS, S9 = noise level and off. Russian sked 0500-0520 and supposed to be followed by another hourthird in Ukrainian. Maybe backcame after I outtuned? (Glenn Hauser, OK, WOR)

** VATICAN. 11755, Monday December 8 at 1958, bit of Rosary, VR IS and off. Noticed as splash upon 11760 checking for absent RHC, good into Georgia SDR, but gone before I could meter it. EiBi shows 1940-2000 Sundays only while Aoki has it daily in Latin (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 810.60, Dec 6 at 0743 UT, JBA carrier hetting 810.00 WHB. Tim Hall suggested it could be KXOI Crane TX, 1/0.5 kW, which NRC AM Log shows as Spanish religionism. I need to try to DF it sometime, but is awfully weak, and reluctant to step outside with the DX-398 on a cold winter night. Once before in the daytime and just now at 1635 UT I`ve tried the closest KiwiSDR, which is Lubbock TX, but not close enough, no signal on 810 or 810.6 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 810.60 kHz, Dec 8 at 0528 UT, mystery carrier again hetting 810.0 WHB (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 981+ kHz, Dec 8 at 0505 UT, het upon 980.00 stations, somewhat more than 1000 Hz. 981 would be a TA frequency, but no trace of any others in complete 9/kHz bandscan. Not heard at 0511. Maybe something local (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1220 kHz, Dec 6 at 0800 UT, `motor-boating` noise again; never heard anything like it anywhere else on MW or SW bands (Glenn Hauser, OK, WOR) {heard moretimes but not relogged}

UNIDENTIFIED. 3455 USB, Dec 8 at 0723, ATC comms, could not make out any clues. EiBi shows NY, SF/Hawaii and Shannon; but Klingenfuß adds many Caribbean area stations (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 5598 USB, Dec 8 at 0729. ATC specifies 3016 as secondary, mentions Santa Maria, i.e. Azores, selcall tones. EiBi shows Azores, Gander, Shannon and New York. Klingenfuß 2022 adds Canary and some Caribs (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 11472-11525 approx., Dec 5 at 2011, multi-carrier, multi-tones beating across this wide range, peaking S9+20 amid. What is this? I habitually start my 25m bandscan at 11500 and never hit it here before; same stuff often around 17450 and other OOB ranges I have reported (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 15391.1 USB, Dec 10 at 2303, bandscan hits S9 intruder, 2-way in very colloquial Spanish; I catch some words here and there vs engine noise: ``mañana ... 40 kilos ... barco negro ... el barco tiene un día más que yo``; 2307 someone yells in background; whistling. Contact is almost inaudible. Stuff like this smax of drug-smuggling. Did not seem concerned about being blasted by Trumpbombs (Glenn Hauser, OK, WOR)
